

```
1 | proc datasets lib=sashelp;  
2 | /* this gives us the name of the datasets stored in the sashelp library */  
3 |  
4 | /* Now lets try changing names of the 1st 3 datasets */  
5 | proc datasets lib=work;  
6 | change first=one;  
7 |  
8 | /* And this one to delete */  
9 | proc datasets lib=work;  
10 | delete one;
```
